SATORI

noun. SUDDEN ENLIGHTENMENT,
CREATIVE AWAKENING

We support you to make the most raw,
impactful and legendary art of our time.
Straight from your essence.

WE HELP YOU
enhance and embolden

YOUR CREATIVE GENIUS,
AND EXECUTE YOUR VISION.

*BOTTOM LINE - THIS IS YOUR
CREATIVE RECLAMATION.*

the values that drive us

To us, being queer artists and practicing anti-racists means *living in devotion to the unique expression of individual purpose and creativity. It means serving the larger collective's liberation through curiosity and advocacy.*

In Satori, we are here to both lead *and* follow within a larger creative movement.

ART CAN BE A *LIFESTYLE* OF ACTIVE ANTI-SELF-ABANDONMENT, RE-HUMANIZATION, ACTIVISM, AND PLAYFUL EMBODIMENT.

We are here to honor and uplift diversity in all shapes and forms. We are about seeing everything within our human experience. We are about engaging the spectrum of creativity, rather than reducing it to binaries. We are about unconditional self-embrace and cultural evolution in a world that attempts to compartmentalize and label our essence, and judge it accordingly.

OUR MOVEMENT IS ABOUT BEING FULLY AND COMPLETELY *ALIVE*.

We are here to see and feel the world in **true color**. We are on a mission to return to what really matters: *to love and to live in creative freedom.*
